G-SERIES SAFETY HARNESSSES

Adjustable, form-fitting harness design goes on very easily & within seconds. Lightweight, breathable mesh & custom-fit design allows for full 360° range of motion for all-season comfort & freedom. The G30 & G20 harnesses incorporate Energy Absorbing System (E.A.S.) tethers to significantly reduce "felt" fall force by nearly 40% compared to other tethers. Delivers the highest level of safety meeting all TMA standards.

NEW

2004372	65014	50 bulk	39.50

Hunter Safety System® full featured harnesses have "sewn-in", heavy duty webbing to make putting on harness easy. Upper pockets are flapped & secured for positive closure & deep enough for flashlights, releases, etc. Heavy-duty stitched seams. Lightweight quick-snap buckles are large enough to handle without removing insulated gloves. Buckles will not dig, pinch or get ice cold in frigid weather. Heavy-duty zippers offer quiet operation & resist corrosion & moisture. Improved "saddle-style" leg straps are positioned to evenly distribute weight across body & legs, eliminating unnecessary pressure to crotch. Fast secure system eliminates dangling straps or weave-through buckles. "Suspension Relief" for added measure of safety in event of fall. Accordion-stitched, Tree Tether provides controlled release, slowing fall & reducing jolt as full-length of tether plays out. •Deer Drag/Suspension Relief strap & ring gives hunters ability to use shoulders, hips & legs to easily drag deer from woods - should fall occur, same features are used to relieve life-threatening suspension trauma.

HUNTER SAFETY SYSTEM® ELITE HARNESS

•Lightweight design weighs less than 3 lbs. •Patented design eliminates dangerous dangling straps & weave-through buckles •Durable, deadly quiet, weather resistant, & comfortable even when the temps drop •2 large bellows pockets, 2 divider pockets, 2 quick-access pockets, plus 2 zippered pockets in the upper portion of the vest •Keep binoculars & rangefinders accessible w/ removable accessory straps •Tether straps are lighter & proved more shock absorption

Order #	Mfg. #	Size	Sugg.Ret.
